

JUMBO SCORED:

Sergeant Moss Wants Atlanta's City Warden Restricted.

POLICE COMMISSIONERS LAST NIGHT.

Private Detectives Touched Upon—A Patrolman Dismissed—Many Matters Mentioned.

The board of police commissioners met in regular monthly session last night.

All were present except Captain Brotherton, who has not sufficiently recovered from his injuries to be out.

The first business was to examine into two charges made against Patrolman Harrington—one for striking a negro, and the other for conduct unbecoming an officer, in that he used profane language in the presence of ladies.

The charge in the first case was dismissed. In the second the officer was found guilty and expelled from the force.

Reports of Officers.

Routine work followed, and the reports of the officers were received.

Chief Connolly reported that the men had done good work, and that the past month's work was well done.

During the month, 1,318 arrests were made, 218 of which were state cases, and 1,100 city cases. Of these latter, 789 were fined, 233 dismissed and 58 continued.

Of the arrests made 440 were white males, 34 white females, 633 colored males and 191 colored females.

Fines to the amount of \$3,836.25 were imposed by the recorder. Of this amount \$1,901.50 was paid, \$142.25 remains unpaid, and the remainder, \$1,892.50, is being worked out on the streets.

The Station House Keeper.

A petition from the station house keepers asking that the commission exert its influence with the city council to add another station house keeper, was favorably received.

Dr. Fouts and Captain Joiner now have twelve hours each, whereas, they think they should have no longer hours than the patrolmen and officers.

The board also passed a resolution giving the station house keeper the sole right to his office, complaint having been made that crowds of officers and others congregate there, and interfere in the work.

About Private Detectives.

Chairman English called attention to the city ordinance requiring that none could practice as detectives without license. He then stated that recently the recorder had released a man who admitted he was a detective without license from the city, but had bound him over to a higher court.

The chairman thought the ordinance should be enforced, and thus keep out any who were not the right kind to be officers.

Chief Connolly's action in making the case was endorsed.

It was then decided to refer the matter to the city attorney, requesting him to change the city ordinance so that it would hold, and would be in conflict with no other law.

The commissioners want private detectives to be responsible to the city, and if the present ordinance is not sufficient they want it strengthened.

Restricting Warden Hunter.

Sergeant Moss went before the commission and wanted the power of City Warden Hunter restricted. The sergeant stated that "Jumbo" walked around in his citizen's clothes and often made arrests in such a manner that trouble was caused.

He told of how the warden had a fight with a negro woman Saturday night, and almost produced a riot, whereas if a regular policeman had done the work there would have been no trouble.

"He noses around outside of his business," said the sergeant, "and several times has caused trouble. Everybody knows Jumbo and everybody hates him, and if he went to arrest a ten-year-old boy the boy would fight, and people around would help him."

"I ask for him to be kept in place for the safety of the policemen and others."

No action was taken in the matter, except that it was referred to the mayor to instruct his warden as to his duties.

A Resignation.

J. R. Thompson, superintendent of the police telegraph system, resigned his position. He asked for an increase of salary, and not receiving it, stated that he would be compelled to get a more lucrative position.

During the exposition a larger force of men is needed, and thirty extra men will be used. On this account an appropriation of \$2,500 will be asked for from the city council.

The meeting adjourned to convene again Wednesday afternoon to decide upon the new winter uniform for the force.

Another called meeting will be held the latter part of the week for the purpose of filling five vacancies on the force.

FROM SAVANNAH.

The Car Record Office of the Central Road Moved Here.

OTHER OFFICES WILL NOW FOLLOW.

General Manager Lane, of the Georgia, Southern and Florida, Writes a Card—Other Railroad News.

Another addition was made to the Richmond and Danville offices in the Kiser building yesterday.

It was the car record office of the Central railroad from Savannah.

The office was in charge of Mr. Theodore Wells, the efficient superintendent of car records.

The office has a force of sixteen men, but only seven of that number came to Atlanta. The others were ignorant of the great advantages of the Gate City, or did not want to leave their girls behind them.

Those who came are Superintendent Theodore Wells, Egbert B. McDaniel, W. B. Bancroft, James Purse, Frank Purse, J. H. Lawrence and W. J. Pullen.

All of these are excellent young men, and expressed themselves as being delighted with the change.

Mr. Egbert B. McDaniel, who is prominently connected with the office, is a brother of ex-Governor Henry D. McDaniel.

The furniture belonging to the office arrived yesterday and was placed in position on the third floor, adjacent to Superintendent of Car Records Darlton's office.

The boys were as happy as possible, but stated that they were about two days behind with their work, caused by the move.

On next Monday the claim office will be moved here from Savannah, with sixteen men under Mr. John B. Preston. That office will be consolidated with Claim Agent Halsey's office.

Will Be Settled Today.

Today is the fateful day when the union depot middle will be finally settled.

It will determine whether the East Tennessee road goes into the depot, and whether the other roads in common with it go out, according to the edict of President Thomas.

The attorneys for the different roads are waiting for the denouement in New York today.

The employees of the East Tennessee are all agog with excitement and interest as to the outcome of the matter.

It is likely that the matter will be settled by the East Tennessee going into the depot.

Manager Lane Writes a Card.

General Manager J. S. Lane, of the Georgia Southern and Florida road, of boycott fame, has written a card denying the statement published that his road was a member of the Southern Passenger Association. He says:

"I beg to state that you have been wrongfully advised in regard to the matter of the reduction of rates on the Georgia Southern and Florida road, and I beg to state that the matter was not a rate cutting, but the rates were decided on after mature deliberation as seeming what was best for the road and the public."

That the Georgia Southern and Florida is not a member of the Southern Passenger Association, and did not wish to be, is the statement of that association, having withdrawn from it after due notice. Yours truly,

Commissioner M. Slaughter, of the Southern Passenger Association, confirmed what Mr. Lane says in regard to his not being a member of the association.

Will Locate Here.

Major W. F. Shellman, of Savannah, late traffic manager of the Central railroad, was in the city yesterday. Since leaving the Central railroad he has not been engaged in business, but it was said yesterday that he was here with a view of locating in Atlanta permanently. His legion of friends in the city would be glad to see him come here to live.

Railroad Sparks.

The claim agent's office of the Richmond and Danville will be moved here from Richmond, Va., and located in the Kiser building. With this office will come a number of men, who will make a valuable addition to the splendid army of fellows who are now at work in the building.

Colonel James L. Taylor will deliver the annual address today before the American Association of General Passenger Agents. Mr. Taylor has quite a reputation as an orator.

Colonel S. B. Pickett, general freight and passenger agent of the South Carolina railway, is lying critically ill at his home in Charleston, S. C. No railroad man in the south is better known than Colonel Pickett, and none more universally liked.

Mr. W. A. Anderson, of Greenville, S. C., formerly general agent of the Port Royal and Western North Carolina railroads was in Atlanta yesterday shaking hands with old acquaintances among the traffic offices.

Mr. R. E. Lutz, of the Atlanta and West Point, is in the city.

Mr. S. M. Swanson, passenger agent of the Kansas City, Memphis and Birmingham railroad, was in Atlanta yesterday.

Mr. W. V. Lisey, of the East Tennessee passenger office here, returned yesterday from a pleasant trip to Jacksonville, St. Augustine and Pablo Beach.

Commissioner Slaughter stated yesterday that he would announce the rate to the exposition today.

Mr. T. T. Smith, of the Richmond and Danville office, at Charlotte, N. C., is in the city for a few days.

Mr. Joseph H. Latimer left yesterday for a trip to North Carolina.

How many times in your experience you have WAITED thinking next week or next month will be time enough to buy a watch, although you know that you are needing it every hour in the day? Do you wish to wait UNTIL you have missed a \$1,000 engagement before you buy a \$50.00 watch? Perhaps you think you can guess at the exact time when your train is going to leave, but do not be sure of your accuracy in this direction; a good watch will save you a great deal of anxiety. Business men who study the economical disposition of their time cannot afford to be without a watch, for time is the equivalent of money. "AURIGRIOU GARUNOHA."

Any day now for business suits. The feature of the season is rough-coated stuffs. Cheviots may do for the very conservative, but the young men who cultivate "the style" are after the Scotchies. There's no disputing it—there's a splendid ruggedness and serviceableness in Scotch fabrics that is very taking, whether fashion frowns or smiles on them. Just now she smiles, and we Clothiers who want young men's trade talk Scotch.

We have the other sorts, too—of course.

"Keeping everlastingly at it," is the advice of an enterprising advertising firm. It's good. We're never done advertising our Tailoring Department. The result—there isn't a store in the city known and patronized as is ours. But exquisite materials, perfect fits and low prices are behind the advertising.

A NEGRO BOY

Found in the Room of Mr. Southern's Daughter.

HE HAD WITH HIM A ROPE AND AN AX,

And Mr. Southern Is Now Looking

for the Negro—He Tells

the Story.

"There is no mistaking his purpose,"

said Mr. P. B. Southern, as he walked into

the police station last night.

And then he proceeded to give some

particulars.

A negro boy slips through a window into

the room of Mr. Southern's fifteen-year-old

daughter.

He carries with him five pieces of rope,

five or six feet long, with a running noose

at the end of each; also a large piece of

cloth and a big chop ax.

He is discovered behind a stove in the

room, but makes his escape.

What did he want there with all those

articles?

"Yes," says Mr. Southern, "there is no

mistaking his purpose. I have traced him

to Atlanta, and I want you all to help me

catch him."

The man's face showed that he had no

doubt of the negro's devilish purpose, and

his eyes flashed like he had some inten-

tion of his own.

Mr. Southern lives at Chamblee, a little

station on the Richmond and Danville rail-

road in DeKalb county.

According to his story, Sunday night

he went to church. Upon their return

the daughter went to her room and prepared

to retire. While doing so she heard a noise

behind the stove, and ran out.

Mr. Southern went into the room, and as

he did so a negro leaped out of the window.

The articles mentioned above were left.

The negro was followed, and finally traced

to Atlanta.

"The negro is named Charley Williams,"

says Mr. Southern, "and he has been working

on the farm. His home is about two hundred

yards from our house, and he knows all about

the surroundings.

"He must have known that we were at

church, and as we were late in returning, he

must have been in the house for some time.

"He is a very black fellow about sixteen,

and has a sore on one of his feet.

"Every circumstance about the matter that

I can think of makes me sure that I can't be

mistaken in my opinion. He couldn't have

been there for burglary, and nothing is missed.

"Then those articles—what did he want with

that way and the cloth?"

Mr. Southern said he was around his home

and the negro, and want him badly.

HE'S A TOUGH ONE.

A Negro Boy Who Is Afflicted with "In-

tense Cussedness."

LENNEX, Ga., September 14.—[Special.]—

For years this community has been afflicted

with the presence and misdeeds of a negro boy

named Aceo Burns, who by reason of pure in-

tense cussedness, indolence and natural ma-

liciousness and abandonment of character, has

been a terror to the community. He has always

been active and ambitious to get into the pen-

ABOUT THE CAPITOL.

Items of Interest Gathered from the Va-

rious Offices.

Governor Nathan yesterday issued orders

offering rewards for four murderers.

A reward of \$100 was offered for John

Dowdy, indicted for murder in Talbot county.

Dowdy has skipped to parts unknown.

A reward of \$30 was offered for S. F. Wil-

son. Wilson is from Monroe county, and on

the 11th of June last he escaped from the

county jail, where he was detained under con-

viction for murder.

One hundred dollars reward was offered for

the capture of the murderers of

Hannah Heard, in Henry county.

Two hundred dollar reward was offered for

the capture of the murderers of

Hosea Jones, in Murray. One night

last May Jones was called to his door by

some masked men and shot to death by them.

The crime was distasteful to the extreme, and

the people of Murray county want the assas-

sins brought to justice.

A Whipping Don Appointed.

The governor yesterday confirmed the ap-

pointment, recommended by the principal

keeper of the penitentiary, of George Backus

as whipping boss of penitentiary No. 2. He

will be located at Waltham, in Wilcox county.

A Captain Commissioned.

Adjutant General Kell yesterday commis-

sioned J. E. Frazier as captain of the Liberty

Independents. This is an old and historic

cavalry company, and was formerly com-

manded by Captain W. W. Gordon, of Savan-

nah. The members of this company reside in

Liberty county, but its armory is in Savannah.

General Cook Out.

General Cook spent nearly all of yesterday

morning in his office at the capital. He was

feeling quite well and cheerful, and dis-

patched a large quantity of business during the

morning. He hopes to be able to come to his

office every day hereafter.

Against the Railroads.

Papers in the case of the railroad commis-

sion against nearly all the railroads in Georgia

were yesterday placed in the hands of

Assistant Attorney General William A.

Little, to be presented to the in-

terstate railway commission. The evil

which the commission seeks to remedy is in-

equality in freight charges, or, in other words,

to have the railroads regulate their freight

rates according to the interstate railway law.

For instance, a carload of freight is

shipped now from Cincinnati to Atlanta for

much less than it can be shipped to Carter-

ville or Kingston. The same is true of

other small towns, and an

order was recently issued by the commission

asking the railroads to regulate this, but they

THAT BANQUET

With Which Distinguished Visiting States-

men will be Honored.

THE YOUNG MEN'S DEMOCRATIC LEAGUE

Will Give One in Every Way Worthy of

the Occasion—Committee Meeting—

Speakers Not Yet Chosen.

The banquet to be given under the auspices

of the Young Men's Democratic League on the

evening of the day of the unveiling of the

Grady monument, October 21st, will be one

of the most notable gatherings of its kind ever

held in the state.

It is to be given complimentary to the dis-

tinguished visiting democrats who will be

here at that time, and among those who have

already accepted the invitation to be present

are Governor Hill, of New York; Governor

Farrison, of Pennsylvania; Governor Abbott

of New Jersey; General Patrick Collins, of

Boston; Senator Vest, of Missouri, and

others.

General Palmer, United States senator

from Illinois, has also partially accepted,

and says that he is very anxious to come if his

engagements will permit. Senator Wolcott,

of Colorado, has accepted the invitation of the

Grady monument committee to be present at

the unveiling of the monument. His notable services to the

country, and particularly to the south, in

bringing about the defeat of the force bill, will

give him a warm reception in Atlanta, and

though a republican, he will be asked to attend

the democratic banquet and hear some whole-

some democratic doctrine as it is preached in

the south.

Governor Hill will speak, as will also Gov-

ernors Farrison and Abbott.

The list of speakers has not yet been

selected, but will be chosen by a subcommittee

from the league appointed at yesterday's meet-

ing, consisting of Messrs. Clark Howell,

Henry Richardson and John M. Slaton.

The banquet will take place in the large

breakfast room of the Kimball house. The

contract was closed yesterday requiring that it

begin at half-past 7 o'clock in the evening, in

order that there may be plenty of time for the

dinner and the speaking.

The room will seat only 150 people; it will

be elaborately decorated with flowers, bunting

and federal flags.

At yesterday's meeting it was decided that

only 100 seats be sold for use in the city, and

that the remaining fifty should be held for dis-

tinguished invited guests who will be here at

that time.

The price of each of the seats was fixed at

\$12.50, which will pay for the entire banquet,

and leave enough for the invitations, decora-

tions and music.

As only 100 tickets will be sold in Atlanta

there will no doubt be a cash for them, as the

dinner will be one of the most interesting

events ever given in the city.

As the banquet is given by the Young Men's

Democratic League it was decided at yester-

day's committee meeting that no definite

engagement for seats should be made until the

members of the league have an opportunity to

get such as they want. For this purpose Mr.

THE GIRLS' COLLEGE.

President Chappell Writes an Interesting Letter Concerning It.

THE OUTLOOK IS VERY BRIGHT.

A Letter to Colonel Whitfield That Tells What is Baffling the Good School Will Do.

At the request of Representative Whitfield, of Baldwin, the CONSTITUTION publishes the following private letter from President Chappell, of the Georgia Normal and Industrial College. It will be read with interest by all friends of that noble institution:

MILLEDGEVILLE, Ga., September 12.—Hon. Robert Whitfield, House of Representatives, Atlanta, Ga.—My Dear Sir: Yours of the 11th instant, making inquiry as to the status of the Georgia Normal and Industrial College, is just received. In reply I am glad to say that the time for opening the institution draws near, its prospects are very bright for a fine attendance and for doing a great educational work.

The examination for the admission of applicants has been going on in different parts of the state since September 1st, and will not be concluded until the 18th instant. As the examination is held in each county, the county commissioners are sending in to me a full report of the result. Fifty-six counties have already reported, with the following result: Forty-eight counties will send a delegation of from one to ten pupils; three counties report that several applicants stood the examination, but that the papers of none of them came up to the required standard, hence no appointments were made. Five counties only report "no applicants." I have no reason to think that the remaining forty-eight counties in the state about eighty counties are still to be heard from, not yet having held their examinations or not having had time to make out their reports and get them to me. There is no reason to think that these counties will not patronize the school as liberally as those already heard from. If they do, the institution will be opened with very nearly its full limit of 300 pupils. I think we may count with perfect safety on at least two hundred and fifty or three hundred, and I think there will be representatives from a large majority of counties in the state.

The examination paper of each applicant is forwarded to me, and the report is required to write me a personal letter, giving her age, scholastic attainments, the purpose for which she wishes to attend the school, etc. I have given these papers and letters as careful an examination as my time has permitted. I have found that the school will be made up of a wonderfully fine lot of pupils. They come to this institution with a far more earnest purpose than girls usually go to college. Of the 156 that I have already examined, over fifty per cent. of them are determined, for the purpose of fitting themselves, in good faith, for the work of teaching. They are from seventeen to twenty-five years of age, and many of them have already had considerable experience in teaching. They are, by the way, no normal school girls, but young ladies from the best schools in the south, offering their advantages for training teachers than will be enjoyed in this institution.

Most of the girls who are not in the normal department will come for the purpose of perfecting themselves in some or another of the industrial arts that will be taught in the school in the most thorough and practical manner.

It is needless for me to dwell upon the incalculable amount of good that this school will do if it only has a fair chance, and its having a fair chance depends entirely upon whether or not the legislature will give it the appropriation we are asking. I read with pleasure and pride in the CONSTITUTION last night of the fact that appropriation was saved before the finance committee by your callant and able effort. I suppose, of course, there was another fight when it came before the house, but we know that you will then, too, do all that can be done to save the school. I think only make the legislature understand the exact state and the entire truth of the case, I am sure that not one of them would vote against the appropriation. You can never in your life have an opportunity of championing a nobler cause before any legislative body, and if you are successful I warrant you that you will not soon have to make another fight for this school; for let it be once established and fairly started, and it will do so good a work that before the expiration of a year the entire people of Georgia will be enthusiastic in its support.

Twelve dollars and fifty cents a month has been fixed as the uniform price of board for students in private families. A large number of the best families in the town have agreed, in the interest of the school, to take them for that, and no higher price will be charged. It will cost even less in the dormitory, but that establishment is not yet started. The normal department of the school need not exceed one hundred and thirty dollars.

All Milledgeville joins me (as all the state would, if they knew the circumstances) in tendering you hearty congratulations and thank you for what you have already done, and in wishing you God-speed in what you may further do in behalf of the Girls' Industrial School. Very truly yours,

J. HARRIS CHAPPELL.

Preparing for the Opening.

MILLEDGEVILLE, Ga., September 14.—(Special.)—Preparations are nearly completed for the opening of the Girls' Normal and Industrial College, and, on the 30th instant, will be opened. President Chappell tonight says the prospects for a grand year's work are very bright. President Chappell has enrolled up to this evening, 172 pupils, representing fifty-five different counties in the state, and county school commissioners are daily sending in the names of new applicants. Mr. Chappell thinks the attendance will reach 300. Of these already enrolled, fifty-two will enter the normal department, and the rest come to perfect themselves in some or another of the various industrial arts taught in the school. The large building is about finished, and presents a superb appearance. It is visited and greatly admired by every traveler who passes through Milledgeville. The school is the best and most complete school building in Georgia. The people may look confidently for great things from this institution.

What steam is to the engine, Hood's Sarsaparilla is to the body, producing bodily power and furnishing mental force.

and it was not until the afternoon hour, when some sensational press dispatches, advising that Russia's action in the Dardanelles incident were received, and the market commenced to decline again. The close was slightly above the lowest with a disposition to rally. The market was somewhat unsettled by the European situation may offer as abundantly discounted in the price of cotton. It is undeniably, however, that the Liverpool trade has been a great disappointment to the buyers of the cotton, which are daily becoming more widely current. The advice which reach merchants is to be very cautious about this point that it is impossible to ignore them, and there is no disposition to increase the short interest, despite the declining tendency of the market. Reassuring advice is given that the market will probably rally, in a steadier market tomorrow.

NEW YORK, September 14.—The Liverpool cotton market is showing a decided improvement, resulting in a decline here at the opening of about 20 points. During the day the market held steady, and at times even seemed inclined to improve, but towards the close the market was somewhat unsettled by the news of the day, the bears assumed the aggressive, and in the absence of any sustaining influence, succeeded in bringing a further decline of 60 points. THE GREAT G. M. I.

The Ambitious Plan of Professor Neel—
Second Only to West Point

WILL BE GEORGIA'S MILITARY INSTITUTE.

Buildings to Be the Best in the United States—Thirty Horses for the Artillery Drill.

Professor C. M. Neel has been quietly planning one of the most important educational enterprises ever set on foot in the United States. The Georgia Military Institute is intended to replace anything that private enterprise or munificence has yet produced in this country. He only stops short of West Point in his plans, and even that will be approached as his ideas are carried out.

Professor Neel leaves in a few days on a tour of inspection. He proposes to examine the best military institutions in the country and take careful notes as he goes. When he comes back, he proposes to put his head together with some architect and plan the best building of the kind in the United States, not excepting those of West Point. In the curriculum he will go as near that of West Point as he can. It will be a matter of time to elevate the standard. He has ample means for his going to West Point (he is a wealthy man) and he has a large endowment large enough to meet every contingency of an enterprise of the kind he has in view. His Kirkwood school numbered 150 students, but it is his ambition to go to West Point with 400.

He will have every appliance for good work. The ground chosen for the campus is all that could be asked, and will be laid off according to the requirements of a military school. There will be an ample parade ground and a battery fully as large as the cadets will want to stand guard over. The military discipline will be thorough, and not of the kind that makes a man a soldier.

The instruction in tactics will cover all branches of the service. There will be a full complement of artillery, and thirty horses will be kept for the drill. Professor Neel expects to begin work during this month.

What Mr. Cox is going to do. Professor Cox has ambitious ideas for the Southern Female college. He will begin with the erection of three buildings, a dormitory, the academic building and a third structure which will include a gymnasium and a natatorium. All the girls who go there will be taught to swim, and their physical culture will be looked after, pari passu with mental development. The buildings will be of brick, and work will begin next March.

Pending the construction of these new buildings, both of these schools will be continued at the old stands—Kirkwood and LaGrange.

The Train Put on Again.

It will be remembered that some weeks ago a special train was put on the Atlanta and West Point railroad by General Tyler, for the accommodation of the people who desire to go to Manchester and inspect that new suburb. The Manchester Land and Improvement Company had only three or four hundred lots laid off for sale, and so great was the rush to these that in the course of two or three weeks the train was discontinued, in order to allow the projectors of the company to cut out the streets, grade the lots and properly number them.

Now that this has been done, the regular schedule, leaving Atlanta at 10 o'clock and returning at 1 o'clock, will be resumed today.

Doubtless a large crowd will go out to see the town since the streets have been graded and the lots properly laid off. The demand for the train is increasing each day, and, of course, those who go out and select first will get the choice.

Mr. Eugene Blalock, one of the projectors of the land company, said yesterday:

"We have had a large force of men out there at work for the last month. The streets have been cut out, and the town put in first-class order. Any one can go out there now and take lots to his entire satisfaction. General Tyler, of the Atlanta and West Point railroad, will resume the regular schedule tomorrow. The train will leave Atlanta at 10 o'clock sharp, and return at 1 o'clock p. m., giving all who desire to go out ample time to inspect the property for themselves. I understand quite a crowd will go out tomorrow. My office has been flooded with letters from all over the country inquiring about this property. You see, since the Georgia Military Institute and the Southern Female college located there, it is bound to be one of the greatest educational centers in Georgia, and the people will come from different parts of the state, and from the north, for that matter, and locate there in order to educate their children."

SELLING WHISKY SUNDAY

The Charge Against a Well-Known Saloon Man—He Denies the Charge. The saloon known as "The Bank Place," at Gate City bank building, is said to have sold beer and whisky last Sunday.

And a case was made against the proprietor, J. P. Buckalew, yesterday morning by Patrolman Patterson.

A case was also made against C. F. Close, who runs the restaurant just back of the bar. It is charged that, Sunday last, intoxicants of several kinds were sold by the saloon through the restaurant.

Both men are well known, and the saloon bears a reputation of being law-abiding. Both men claim that no beer or whisky was sold, and the only intoxicants in the restaurant was what was left there the night before by parties who called for it the next day.

The trial will come off in a few days.

Do you have distress in the stomach after eating, or faintness, heartburn, headache, or other dyspeptic symptoms? Hood's Sarsaparilla will tone the stomach, give an appetite and cure you.

A STRONG FIRM.

The Freyer & Bradley Music Company and What It Is Doing. The Freyer & Bradley Music Company, located at 45 Peachtree street, is one of the great music houses of the south. They deal in strictly first-class musical instruments of all kinds, as well as all kinds of the finest music. Their store, occupying four floors, each 125 feet long, are filled with every kind of piano and New England piano and Wilcox & White and Needham organs—musical instruments known all over the world as the very best. The company is doing a large and thriving business, working several states in selling their instruments for cash or on time. Pianos from \$25 to \$1,000; organs from \$25 to \$500, with a large stock to rent. Special bargains given on square pianos—as good as new. Catalogues sent free, and every effort will be made to please our customers and friends. F. L. FREYER, President.

The New Store. At 25 Whitehall street is selling the best nickel watches at 75 cents each. Every one wants them. DOBBS, WEY & CO. 45 Peachtree street.

Old Hats Remodeled. Do you want your old hat made as good as new and in the latest style? If so, call on W. E. at 25 Marietta street, upstairs. He has remodeled a lot of fall and winter hats, which were all the latest styles, and you can save the cost of purchasing a new hat by having your old one remodeled. He will make your hat as good as new and in the latest style. Call on him at 25 Marietta street, upstairs.

"DOO ZHORT."

A German Doesn't Think He Hides a Nickel's Worth.

The street car track on Decatur street is being relaid for an electric line and a good distance is now torn up.

Yesterday morning when an incoming car was about a block the other side of where the torn-up place begins, a German hailed the car and got inside.

He evidently didn't know of the track being torn up, and intended to ride up town. In a few moments the car stopped and Fritz saw that he could ride no further.

Of he stepped. The driver yelled for his fare. Fritz didn't know much about the English language, but soon found out that a nickel was wanted for his ride.

"Eet vas doo zhort," he finally drawled out, in extremely broken English.

"Can't help it. Gimme your fare," demanded the driver.

"Doo zhort," returned Fritz, shaking his head and starting off.

"I'll have you arrested if you don't pay," the German didn't know anything but "Doo zhort," and the driver called in a blue coat.

Yesterday afternoon the case was tried before Judge Calhoun, who, after getting the particulars of the case through an interpreter, agreed with Mein Herr Fritz, that the distance was "too short," and dismissed the case.

GOING TO COLLEGE.

Some Who Passed Through Atlanta Yesterday. The University of Georgia, at Athens, and Emory college, at Oxford, begin new terms tomorrow.

Yesterday many students from over the state passed through Atlanta.

Among those going to Athens were the following: J. S. Horsely, West Point; E. W. Frey, Marietta; Bob Ridley, LaGrange; Fortune Lanier, West Point; B. G. Frey, Marietta; H. H. Smith, Seneca; Will Glass, Seneca; R. N. Hogg, West Point.

Among those going to Oxford were: F. Smith, LaGrange; Carl Thompson, Jefferson; Gus Cox, West Point; Scott Baker, West Point; A. A. Rose, Barnesville; J. F. Neese, Fairburn; E. A. Pound, Barnesville; W. Bowden, Seneca; J. A. Sharp, Wallerka.

JUSTIFIABLE SHOOTING.

The Coroner's Jury Renders a Verdict About Charley Walter's Death. The coroner's jury met again yesterday to further examine into the death of Charley Walters, the negro shot by Deputy Marshal G. M. McConnell Wednesday night.

Several witnesses were examined, and the jury made a careful investigation to decide upon whether there was enough provocation for the shot to be fired.

As a result the officer was completely exonerated, and a verdict was found to that effect.

All the witnesses testified that Walters, his wife and daughter piled upon the marshal, and that the former tried, and was about to cut him.

A PRETTY EFFECT.

The New Lights at the Cyclorama—Becoming More Popular Than Ever. The new lights at the cyclorama produce a charming effect.

The arc lights that were formerly used made a glare that didn't do justice to the picture at night, and recently they have been taken out and incandescent lamps put in their place.

The change is an excellent one, and the scene at night is much prettier than formerly. The new lights give an effect just as if it were day, and the shadow on the canvas appears with wonderful naturalness.

The cyclorama is more popular than ever and hundreds are charmed by it daily.

Old-fashioned ways in washing need strength in the washer and strength in what is washed. The modern way is to use Pearline. It saves labor for weak backs; it saves wear to delicate fabrics. It cleans houses as well as washes clothes, and what it does, it does safely. Millions use it. Pearline is soap's successor; where soap fails, Pearline succeeds.

Let's reason together.

Here's a firm, one of the largest the country over, the world over; it has grown, step by step, through the years to greatness—and it sells patent medicines—ugh!

"That's enough!"

Wait a little—

This firm pays the newspapers good money (expensive work, this advertising!) to tell the people that they have faith in what they sell, so much faith that if they can't benefit or cure they don't want your money. Their guarantee is not indefinite and relative, but definite and absolute—if the medicine doesn't help, your money is "on call."

Suppose every sick man and every feeble woman tried these medicines and found them worthless, who would be the loser, you or they?

The medicines are Doctor Pierce's "Golden Medical Discovery," for blood diseases, and his "Favorite Prescription," for woman's peculiar ills. If they help toward health, they cost \$1.00 a bottle each! If they don't, they cost nothing!
